COOLCASC® CUSTOMIZED FOR BIKE

Coolcasc, the N°1 brand of helmet covers, has also ventured into the bike market, with customized covers specially designed for the sport.

Although our other collections can be used with bike helmets thanks to the universal pattern, we have developed two collections exclusively for the bike market: JET BIKE and WATER PROOF.

Please see the features on the following table:

(1) Optional features are included in the price.

* For the other custom collections please check the groups catalogue

COOLCASC® JET BIKE

The covers are made of micro perforated lycra® which allows increased air flow whilst at the same time improves the aerodynamics.

The very light single layer of matt lycra® is an important development as it avoids adding extra weight to the helmet. In addition the covers prevent insects from getting inside the helmet, perfect for those helmets without a net inside.

The printing is done by sublimation so any design can be achieved without limiting the colours and we can even print photos or images.

JetBIKE is the ideal collection for cycling teams or groups looking for completely customized equipment.

It's also ideal for cycling groups wishing to use the cover for advertising or merchandising. The helmet cover thus becomes a visible and moving advert in cycling races or events.

COOLCASC® WATER PROOF

Helmet Covers are made of water-proof lycra®, they have been developed to be impermeable. They complete the look and are becoming an essential part of cycling equipment to avoid getting wet on rainy days.

COOLCASC® Seats

Seat covers complete the cycling customized pack, made of water-proof lycra® with a matt finish and sublimation printing.

They are a good option for customizing urban bike fleets that also allows the seats to stay new and clean.

COOLCASC® Bags

We offer a complete customized pack with drawstring bags to protect and store the helmet and any sporting accessories that may be needed.

Printed by sublimation, they can be 100% customized and can also be used as a back pack.

- Size: 36,5 x 41cm
- Composition: 100% polyester.

COOLCASC® CATALOGUE

All of our helmet covers from the main COOLCASC® catalogue, can also be used for bike. Any of our covers (Animals, Show-Time, Foggy Days or Print Cool) can be adapted for use on a bike helmet. This way, the helmet can be used in a fun and original way.

Go on a bike ride, have fun and steal some smiles as you pass with your COOLCASC®!
